

A Brief Introduction of the Financing Structure, Channels and Cost of Far East Horizon

Far East Horizon always adheres to the financing diversification strategy of multi-platforms, multi-currencies and multi-products to ensure the continuous supply of capital resources and cost optimization.

As at the end of 2020, about 22% of Far East Horizon's interest bearing liabilities came from overseas financing, about 23% from foreign currencies (mainly in US dollars), and about 46% from direct financing. Up to now, Far East Horizon has maintained cooperative relations with more than 100 domestic and foreign banks, and the overall financing cost has been maintained a clear advantage as compared to the peers.
